

# Installation, Finishing and Maintenance of Wood Floors

**June 30, 2022 / 1 p.m. EDT**

There are probably as many ways to prepare, install and finish wood floors as there are products available to do these functions. During the course of this presentation, you will learn about the MAPEI products available for wood-floor installation and finishing, and will discover which ones work best based on each type of wood used and substrate condition. It is the goal of this Webinar that, at its conclusion, you will be better equipped to select the right MAPEI material for your wood-floor installation so that it looks great for years to come.

This presentation will discuss the facts about installing, finishing and maintaining wood floors. Attendees will learn:

- How to make sure subfloors are suitable and prepared properly for wood-floor installations.
- Best-installation practices and proper adhesive selection for engineered and solid wood flooring.
- The process and products available to finish or refinish wood floors.
- The proper maintenance techniques and MAPEI maintenance products to keep your hardwood flooring looking great year after year.
