

## Combating high-moisture conditions with MAPEI patches

**May 6, 2021 / 1 p.m. EDT**

This presentation will provide an overview of high-moisture conditions and how they can be worked around. Moisture from the substrate must never reach the flooring, but there are ways of blocking moisture that will allow you to install within hours, if not immediately.

At the end of this presentation, participants will learn:

- Which flooring patches to use with which installation.
- The various types of MAPEI flooring solutions that block moisture.
- How to prepare a substrate that has high moisture content so that it can receive flooring.
- Potential problems for flooring installations on top of slabs and how to avoid these problems.

## WEBINAR

Combating high-moisture conditions with MAPEI patches

May 6, at 1 p.m. EDT

**Duration: 60 min.\***

*\* The Webinar will include a question-and-answer period.*
