

Material-Ingredient Reporting

June 17, 2021 / 1 p.m. EDT

This presentation will provide a look at MAPEI's material-ingredient reporting process, discussing how and why material-ingredient transparency matters to project specifications.

Participants will learn about:

- Material-ingredient transparency and why it is important.
- Types of material-ingredient reports that are available.
- How to use material-ingredient reports to meet various green building standards and certification programs.
- MAPEI's Manufacturers' Inventories and third-party verification process.
- The Living Building Challenge's Red List and why project teams should avoid the products that are on the list.

WEBINAR

Material-Ingredient Reporting

June 17, at 1 p.m. EDT

Duration: 60 min.*

** The Webinar will include a question-and-answer period.*
