

In order to use our color libraries in the **Adobe® Photoshop® CC 2018** application:

1. Save the "adobe_photoshop_mapei_master_collection_2019" file to the desired location on the disk.
2. Start **Adobe® Photoshop® CC 2018**.
3. In the menu, select: "Window" and "Swatches".
4. In the 'Swatches' window in the upper right corner, click the window's option icon.
5. Select "Preset manager ..." from the context menu.
6. In the "Preset manager ..." window, select the "Load" command on the right side of the window.
7. In the "Load" window, select the location of the previously saved Mapei color library, select the library file and confirm with the "Load" button.
