

In order to use our color libraries in the **SketchUp 2018** application:

1. Unzip downloaded library file "trimble_sketchup_mapei_master_collection_2019.zip" in chosen place on your computer.
2. Go to the SketchUp application and click the "Details" icon in the "Materials" tab (arrow pointing left on the right side of the window).
3. From the context menu select the command "Open or create a collection ...".
4. In the "Select a collection folder or create a new one" window, indicate the folder into which the Mapei color library has been unpacked and accept the selection with the "Select folder" button.
