

## To use our color libraries in the **CorelDRAW® 2019** application:

1. Save the "corel\_draw\_mapei\_master\_collection\_2019" file to the desired location on the disk.
2. Start **CorelDRAW® 2019**.
3. From the "Window" menu, select "Dockers", and after opening the submenu - "Palettes".
4. In the open "Palettes" tab at the bottom of the window, select the "Open palette" icon.
5. In the "Open palette" window, select the location of the previously saved Mapei color library, indicate the library file and confirm with the "Open" button.
